IMP-T311K twin post #3, plate #1, box #1, in black, knob.

The Imperial System

Choose a Beautiful Imperial System in Durable Aluminum

The Imperial mailbox is of cast aluminum (not sheet metal) that will never rust or rot. These stunning mailboxes were first designed for a unique golf course community and are now found on America's most prestigious home sites. Create your own from the choices on this page. USPS tested and approved. Mailbox: 7-3/4" x 10-1/2" x 19". Post: approximately 60".

A note about metal casting

Cast aluminum mailboxes are first poured in a sand mould that does not allow perfection in every detail. But that's the appeal of such castings. These "accidentals of art" lend an Old World charm to each piece that no artist could fashion intentionally. In effect, each one is a unique creation.

Direct In-ground Installation

Heavy-duty underground aluminum extension won't rust or rot.

Custom Coordinate a Master Planned Community

Custom Home's signs, markers and mailboxes can be matched community wide: address plaques, mailboxes, street signs, course markers, club house signs and community entrance signs. Choose from the Imperial System styles on this page and the following pages and match with aluminum address plaque styles on pages 18-19.
